Pursuant to Section 2-8.10 of the Miami-Dade County Code, this Contract is subject to a user access fee under the County User Access Program (UAP) in the amount of two percent (2%). All sales resulting from this Contract, or any contract resulting from the solicitation referenced on the first page of this Contract, and the utilization of the County Contract price and the terms and conditions identified herein, are subject to the two percent (2%) UAP. This fee applies to all Contract usage whether by County Departments or by any other governmental, quasi-governmental or not-for-profit entity.

The Contractor providing goods or services under this Contract shall invoice the Contract price and shall accept as payment thereof the Contract price less the 2% UAP as full and complete payment for the goods and/or services specified on the invoice. The County shall retain the 2% UAP for use by the County to help defray the cost of the procurement program. Contractor participation in this invoice reduction portion of the UAP is mandatory.

**b) Joint Purchase**

Only those entities that have been approved by the County for participation in the County's Joint Purchase and Entity Revenue Sharing Agreement are eligible to utilize or receive County Contract pricing and terms and conditions. The County will provide to approved entities a UAP Participant Validation Number. The Contractor must obtain the participation number from the entity prior to filling any order placed pursuant to this Section. Contractor participation in this joint purchase portion of the UAP, however, is voluntary. The Contractor shall notify the ordering entity, in writing, within ten (10) business days of receipt of an order, of a decision to decline the order.

For all ordering entities located outside the geographical boundaries of Miami-Dade County, the Contractor shall be entitled to ship goods on an "FOB Destination, Prepaid and Charged Back" basis. This allowance shall only be made when expressly authorized by a representative of the ordering entity prior to shipping the goods.

The County shall have no liability to the Contractor for the cost of any purchase made by an ordering entity under the UAP and shall not be deemed to be a party thereto. All orders shall be placed directly by the ordering entity with the Contractor and shall be paid by the ordering entity less the 2% UAP.

**c) Contractor Compliance**

If a Contractor fails to comply with this Article, that Contractor may be considered in default by the County in accordance with Article 22 of this Contract.

#### **ARTICLE 38. SURVIVAL**

The parties acknowledge that any of the obligations in this Agreement will survive the term, termination and cancellation hereof. Accordingly, the respective obligations of the Contractor and the County under this Agreement, which by nature would continue beyond the termination, cancellation or expiration thereof, shall survive termination, cancellation or expiration hereof.

#### **ARTICLE 39. ANNUAL APPROPRIATION**

The County's performance and obligation to pay under this Agreement is contingent upon an annual appropriation by the Board of County Commissioners. Cancellation will not cause any penalty or expense to the County, except as to the portions of payments agreed upon and for which funds have been appropriated and budgeted. Support (service/maintenance) can be cancelled at any time that the Contractor is notified in writing, at least thirty (30) days prior to cancellation, subject to the terms of Appendix B. There will be no early termination charges from the Contractor for canceling Support during the year due to non-appropriations.

#### **ARTICLE 40. WARRANTY**

Contractor must provide warranty services on ALL Hardware that is purchased through this Agreement. Warranty costs are to be included in the Hardware price, except for optional upgrades. Any defective items shall be replaced in accordance with the applicable warranty. - ii. Product Warranty Claims. When Contractor receives a valid warranty claim for Contractor Hardware or Software, HP will either repair the relevant defect or replace the Product. If Contractor is unable to complete the repair or replace the Hardware or Software within a reasonable time, the County will be entitled to a full refund upon the prompt return of the Product to Contractor (if Hardware) or upon written confirmation by the County that the relevant Software has been destroyed or permanently disabled. Contractor will pay for shipment of repaired or replaced Products to the County and the County will be responsible for return shipment of the Product to Contractor.
- iii. Software Performance. Contractor warrants that HP Branded Software will conform materially to their specifications and be free of malware at the time of delivery. Contractor warranties for HP Branded Software will begin on the date of delivery and unless otherwise specified in a mutually agreed upon Supporting Material, will last for ninety (90) days. Contractor does not warrant that the operation of Software will be uninterrupted or error-free or that Software will operate in hardware and software combinations other than as authorized by Contractor in Supporting Material.
- iv. Remedies. This Agreement states all remedies for warranty claims. To the extent permitted by law, Contractor disclaims all other warranties.

##### **b) Onsite Inventory Equipment.** Contractor's Onsite Inventory Program, including warranty information, is detailed in Appendix A.

The Contractor agrees to submit all Deliverables required to be submitted for review and approval by the County. The Contractor understands that the County shall have final approval on all Deliverables.

If Supporting Material for Services defines specific Deliverables, Contractor warrants those Deliverables will conform materially to their written specifications for 30 days following delivery. If the County notifies Contractor of such non-conformity during the 30-day period, Contractor will promptly remedy the impacted Deliverables or refund to the County the fees paid for those Deliverables and the County will return those Deliverables to Contractor.

#### **ARTICLE 43. FORCE MAJEURE**

Except as otherwise expressly provided herein, neither party hereto shall be considered in default in the performance of its obligations hereunder to the extent that such performance is prevented or delayed by any cause, existing or future, which is not within the reasonable control of such party including, but not limited to, acts of God or the public enemy, fires, explosions, riots, strikes (not including strikes of the Contractor's staff personnel), terrorism or war. Notwithstanding the foregoing, the failures of any of the Contractor's suppliers, subcontractors, or the like shall not excuse the Contractor's performance except to the extent that such failures are due to any cause without the fault and reasonable control of such suppliers, subcontractors, or the like including, but not limited to, acts of God or the public enemy, fires, explosions, riots, strikes (not including strikes of the Contractor's staff personnel), terrorism or war.

#### **ARTICLE 44. NON-EXCLUSIVITY**

Although the purpose of this Agreement is to satisfy the IT Hardware needs of the County, it is hereby agreed and understood that this Agreement does not provide an exclusive right to the Contractor to receive all orders that may be generated by the County. This Agreement shall not restrict the County from acquiring similar, equal or like goods and/or services from other entities or sources.

#### **ARTICLE 45. LEASING**

In the event of a back order, Contractor will work with the County to provide alternative Products (subject to the County's approval), which can ship more rapidly. If a back order is not resolved within a time frame acceptable to the County, the County may cancel the back order, though orders that have already shipped, or are in the customization process, cannot be cancelled. Orders that have shipped are subject to the HP State and Local Government and Education Customer Return Policy, as included in Appendix C.

**ARTICLE 48. SUPPLEMENTAL TERMS****48.1 Products.**

- (a) Title. Risk of loss or damage and title for Hardware Products will pass upon delivery to the County or its designee. However, risk of loss or damage and title for the On-Site Inventory Hardware Products will pass to the County as set forth in Appendix A. Where permitted by law, Contractor retains a security interest in Hardware sold until full payment is received.
- (b) Installation. If Contractor is providing installation with the Product purchase, the Parties will mutually agree upon a statement of work, including site guidelines. Contractor will conduct its standard installation and test procedures to confirm completion.

**48.2. Software.**

- (a) The intent of this Agreement is not for the purchase of standalone (for fee) Software. This Section will only apply to Software preloaded on Hardware, which is necessary for the configuration and operation of Products, and included in the purchase price of the Standard Configurations.
- (b) Contractor shall not install any trial, demonstration, temporary, promotional Software or additional Software not authorized by the County on any Hardware Products ordered by the County under this Agreement. Contractor shall be liable for any misuse arising out of any such installation in violation of this Section.
- (c) License Grant. Contractor grants the County a non-exclusive license to use the version or release of the HP Branded Software listed in the order. Permitted use is for internal purposes only (and not for further commercialization), and is subject to any specific Software licensing information that is in the Software Product or its Supporting Material. For non-HP branded Software, the third party's license terms will govern its use.
- (d) Updates. The County may order new HP Branded Software versions, releases or maintenance updates ("Updates"), if available, separately or through an HP Branded Software Support agreement. Additional licenses or fees may apply for these Updates or for the use of the Software in an upgraded environment. Updates are subject to the license terms in effect at the time that Contractor makes them available to the County.

- (e) License Restrictions. Due to the restriction in sections 48.2(a) and (b), remote monitoring is not applicable to this Agreement. The County may make a copy or adaptation of a licensed HP Branded Software Product only for archival purposes or when it is an essential step in the authorized use of the Software. The County may use this archival copy without paying an additional license only when the primary system is inoperable. The County may not copy licensed Software onto or otherwise use or make it available on any public external distributed network. Licenses that allow use over the County's intranet require restricted access by authorized users only. The County will also not modify, reverse engineer, disassemble, decrypt, decompile or make derivative works of any Software licensed to the County under this Agreement unless permitted by statute, in which case the County will provide Contractor with reasonably detailed information about those activities.
- (f) License Term and Termination. Unless otherwise specified, any license granted is perpetual, provided however that if the County fails to comply with the terms of this Agreement, Contractor may terminate the license upon written notice. Immediately upon termination, or in the case of a limited-term license, upon expiration, the County will either destroy all copies of the Software or return them to Contractor, except that the County may retain one (1) copy for archival purposes only.
- (g) License Transfer. The County may not sublicense, assign, transfer, rent or lease the Software or Software license except as permitted by Contractor. HP Branded Software licenses are generally transferable subject to Contractor's prior written authorization and payment to Contractor of any applicable fees. Upon such transfer, the County's rights shall terminate and the County shall transfer all copies of the Software to the transferee. Transferee must agree in writing to be bound by the applicable Software license terms. The County may transfer firmware only upon transfer of associated hardware.
- (h) US Federal Government Use. If Software is licensed to the County for use in the performance of a US Government prime contract or subcontract, the County agrees that consistent with FAR 12.211 and 12.212, commercial computer Software, documentation and technical data for commercial items are licensed under Contractor's standard commercial license.

#### 48.3 **Services.**

- (a) Support Services. Contractor's Support Services will be described in the applicable Supporting Material, which will cover the description of Contractor's offering, eligibility requirements, Service limitations and the County responsibilities, as well as the County systems supported. Support Services are further described in Appendix B – Supplemental Data Sheet.
- (b) Dependencies. Contractor's ability to deliver services will depend on County's reasonable and timely cooperation and the accuracy and completeness of any information from County needed to deliver the services.
- (c) Change Orders. Contractor agrees to appoint a project representative to serve as the principal point of contact in managing the delivery of Services and in dealing with issues that may arise. Requests to change the scope of Services or Deliverables will require a change order signed by both parties.
- (d) Services Performance. Services are performed using generally recognized commercial practices and standards. The County agrees to provide prompt notice of any such Service concerns and Contractor will re-perform any Service that fails to meet this standard.

#### 48.4 **Eligibility.** Contractor's Service, Support and warranty commitments do not cover claims resulting from:

- (a) improper use, site preparation, or site or environmental conditions or other non-compliance with applicable Supporting Material;
- (b) Modifications or improper system maintenance or calibration not performed by Contractor or authorized by Contractor;
- (c) failure or functional limitations of any non-Contractor Software or product impacting systems receiving Contractor Support or Service;
- (d) malware (e.g. virus, worm, etc.) not introduced by Contractor; or
- (e) abuse, negligence, accident, fire or water damage, electrical disturbances, transportation by the County, or other causes beyond Contractor's control.

48.5 **Personal Information.** Each party shall comply with their respective obligations under applicable data protection legislation. Contractor does not intend to have access to personally identifiable information ("PII") of the County in providing Services. To the extent Contractor has access to the County PII stored on a system or device of the County, such access will likely be incidental and the County will remain the data controller of the County PII at all times. Contractor will use any PII to which it has access strictly for purposes of delivering the Services ordered.

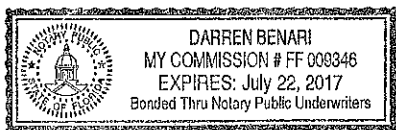

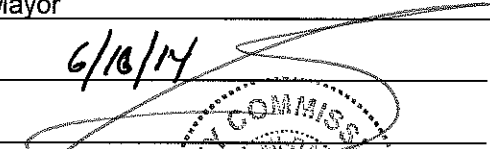

48.6 **Global Trade Compliance.** Products and Services provided under these terms are for the County's internal use and not for further commercialization. If the County exports, imports or otherwise transfers products and/or deliverables provided under these terms, the County will be responsible for complying with applicable laws and regulations and for obtaining any required export or import authorizations. Contractor may suspend its performance under this Agreement to the extent required by laws applicable to either party.

IN WITNESS WHEREOF, the parties have executed this Agreement effective as of the Contract Date herein above set forth.

- Desktop Computers – Personal computers designed for regular use at a single location, inclusive of all associated components, including but not limited to, the system, monitor, keyboard, mouse and audio accessories
- Mobile Computers – Personal computers designed for regular use at varied locations, inclusive of all form factors, including but not limited to, laptops, netbooks, and tablets

### **II. Leasing Services**

Hewlett-Packard Financial Services Company (HPFS), which is a wholly-owned subsidiary of Hewlett-Packard Company (FEIN: 76-0523923) is pleased to provide the County with a proposal for a possible lease/financing transaction with HPFS.

HPFS offers a complete array of leasing and financial lifecycle management services. HPFS can help the County transition from existing technology, acquire a new solution cost-effectively, and manage that solution throughout its lifecycle, *including hardware, software, warranty and support services in the lease*. HP's goal is to help increase the return on IT investment, reduce risk, and work within existing capital and operating budgets.

There are variations and options with each major lease plan. The plans below are examples of what is offered through HP Financial Services Public Sector Sales, and can be adapted to address the County's specific needs. For example, HPFS can structure a customized leasing or financing plan based on factors such as budgetary requirements, equipment delivery and installation cycles, and the anticipated period of use to help maximize the benefits to the County. *HPFS does not charge documentation or service fees on lease transactions.*

**HPFS can offer terms from a minimum of 2 years up to 5 years, with payment structure of annual, quarterly or monthly, depending on the cash flow needs of the Lessee.**

Additionally, as HPFS is a wholly owned subsidiary of the Hewlett-Packard Company there is no need to assign invoices to a third party company and HPFS will work closely with HP customer service to expedite orders. *HPFS will require a direct billing for each Lease Schedule executed under a Master Lease Agreement.*

#### **A. Leasing Options**

HPFS can offer either full-payout financing or a true lease structure, depending on end-of-life disposition practices:

##### **1. Tax-Exempt Financing**

Tax-Exempt Financing is available to political subdivisions/103A entities. Is basically an installment sale that the Lessee may terminate if it does not appropriate sufficient funds for the lease payments during any fiscal year. For Federal tax law purposes, the transaction is considered a purchase, with the Lessee considered the buyer and the Lessor considered the seller (title is typically held by the Lessee). The Lessor is not entitled to take any depreciation on the property.

##### **2. FMV Lease**

An FMV Lease is documented on a HPFS Master Operating Lease Agreement. HPFS as Lessor is tax owner of the asset(s) and essentially rents/leases the equipment for the term to the Lessee. At lease maturity, Lessee typically has the following options: (a) Purchase all the equipment for Fair Market Value (FMV), (b) Return all equipment to Lessor, (c) Renew the lease

at then FMV for an extended term, or (d) Continue paying rents until able to make a decision on previous three options.

### **3. Tech Refresh Lease**

A Tech Refresh Lease is available to political subdivisions/103A entities. Is structured as a Tax-Exempt Installment Sale with an option on the last payment to either return the equipment and acquire new, OR make the payment and own the equipment outright. The option is generally calculated as a wholesale residual. There is only one refresh opportunity during the lease with no partial refreshes allowed. The documentation requires standard tax-exempt installment sale contracts with a Tech Refresh Amendment.

## **III. Custom Image Services**

As part of our Custom Integration Services (CIS), HP Direct offers four (4) standard services within our Software Integration offering, each of which includes an in-factory image loading process for PCs. HP's standard Software Integration Services are available globally, and the County may select from the following categories of competitively priced imaging services. There is no limit to the number of images that the County can provide to HP for deployment, which comply with the CIS requirements of this Section III.

### **A. Image Development**

#### **1. HP PC Image Load Service**

HP will process and load County-provided images at HP factories prior to delivery. HP can accept images in the following formats: FTP file, CDR/CDRW or DVD, or USB key, and images must have been developed using a compatible cloning tool, which includes Image X (WIM or SWM format), Ghost 11 or 8.3 and Rdeploy, and require no additional modifications prior to placing the image into production, including any legacy or special testing. The County can provide updated images at any time, which comply with the CIS requirements of this Section III. This service shall be provided at no cost to the County.

#### **2. HP PC Image Modification and Load Service**

HP will modify County's existing PC software image and load the image at HP factories prior to delivery. As part of this service, HP will modify the image based on the County's specifications, including the addition of HP standard drivers, partition modifications, installing up to three (3) additional software applications, adding or modifying up to three OS configuration settings. This service also includes up to one image modification per quarter to in-production images at no additional cost. This service shall be provided at a cost of \$2.50 per device.

#### **3. HP PC Image Build and Load Service**

HP will create a new custom image based upon the County's functional needs and specifications, and will process the image to be loaded at HP factories prior to delivery. This service shall be provided at a cost of \$7.50 per device.

#### **4. HP Multi-Platform PC Image Service**

HP will build and install a County PC master image on multiple HP PC platforms during the manufacturing process in the factory. The service shall be provided at a cost of \$13.00 per device.

#### **5. Additional Imaging Solutions**

Should the County require a more complex imaging solution, HP offers additional services beyond our standard services which provide higher levels of customization. HP would be glad to provide more details and custom pricing upon determining the exact requirements of the project.

## **B. Image Recovery**

1. HP will provide a secure FTP site that allows the County to obtain copies of all County images at no cost.
2. HP Back-Up Media Design & Replication: At the County's option, HP will develop a specialized restore solution capable of recovering a custom image and ship a copy of the specialized restore CD/DVD with each device at a cost of \$10.00 per device.

## **C. Test Procedures**

The following is a list of test procedures that the Custom Integration Services Test Team performs during the HP PC Image Load Service. They are grouped into functional categories.

### **1. Requirements**

The test procedures in subsections C.2 through C.4 below, shall be completed by HP within 10 business days of the County's provision of image files, subject to the following County responsibilities:

- Ensure PC software image is communicated to HP using one of the following media: FTP file, CDR/CDRW or DVD, USB key;
- Ensure PC software image is properly validated and generated using one of the HP supported tools: (Image X (WIM or SWM format), Ghost 11 or 8.3 and Rdeploy;
- Perform final test and accept prior to mass deployment; and
- Sign-off acceptance test prior to mass deployment.

### **2. System Installation**

- Verify that the BIOS Settings are correct if applicable.
- Verify the hardware is built to the County's specification.
- Verify that the image installs correctly.
- Any anomalies during or after the image unbundle process will be recorded, investigated for possible cause and resolution, and related back to the County only if the system does "blue screen" during the initial image boot up/login process.

### **3. Base System Testing**

- Verify that the file system, volume name and partition information is correct.

### **4. Software Tests**

- Verify that the image being processed is correct, based on an MD5 value.
- Install or execute Anti-Virus program (using the latest available virus definition updates available from the anti-virus program manufacturer's website) to ensure the image has no viruses.
- Additional testing may be performed for the HP PC Image Modification & Load Service, the HP PC Image Build & Load Service, HP Multi-Platform PC Image Service, or when other customization services are performed in-factory along with the HP PC Image Load Service.

## **IV. Self-Maintainer Program**

The HP Self-Maintainer Program provides the County with an alternative to service and support through HP authorized warranty delivery partners or HP Services. In turn, the ability to self-service eligible HP products allows the County to meet the needs of its internal customers quickly.

The HP Self-Maintainer Program is intended for end-user customers who meet the following criteria:

- Purchase at least \$50,000 in eligible HP products each year;
- Have specific requirements to service the HP products they operate and either own or lease.

### **A. Features and Benefits**

As an HP Self-Maintainer, the County can take full advantage of the features and benefits that follow.

#### **1. HP Channel Services Network (CSN)**

An online warranty claims processing program. This Microsoft® Windows®-based application ties directly into the HP Service Order Management database. CSN can be accessed through the Internet 24 x 7 and allows real-time ordering (no batching). It enables warranty verification, permits claims processing, and provides detailed reports.

#### **2. Repair/Exchange**

An efficient, cost-effective method of obtaining inventory, as well as maintaining tighter inventory control. This is a one-for-one parts exchange program for out-of-warranty HP parts. Partial credit will be given for defective parts once returned. Additionally, active HP Self-Maintainers receive a discount on non-warranty HP Genuine Spare Parts when purchased via the HP Parts Store.

#### **3. In-Warranty Repair**

Receive the service authorization and the technical knowledge to perform in-warranty PC and printer repairs. HP provides the tools and training necessary to reduce response time in critical situations.

#### **4. Service Advisories and Bulletins**

Include the latest service-related information regarding administrative procedures, products, programs, special offers, and non-critical technical information. They are published on CSN whenever there is a need to communicate critical service information.

#### **5. Warranty Labor Reimbursement**

Entitles parts-and-labor tier Self-Maintainers to warranty labor reimbursement for product repairs that are performed during the warranty period.

### **B. Program Fees**

There is no fee associated with participating in HP's Self-Maintainer Program for the proposed Products. A self-maintainer technician can participate in the HP Self-Maintainer Program only after completing the training and passing the qualification tests offered by HP or through HP's authorized third party testing vendor. There is no cost associated with the training or qualification testing of County technicians.

### **C. Support Options**

The HP Self-Maintainer Program has two levels or tiers, enabling the County to choose the program that best fits its needs.

- **Parts-only Tier**—HP will provide free replacement parts under factory warranty only. Labor is not reimbursed.
- **Parts-and-labor Tier**—HP will provide free replacement parts under factory warranty only with labor reimbursement.

#### **1. Parts-only Tier 1**

The following are the minimum requirements for the parts-only tier:

- Must own or lease the equipment being serviced and the equipment must be located at the customer site.
- Must qualify for net 30 terms with a minimum credit limit of \$10,000.
- Must have at least one certified technician per service location. Multiple locations with the same assigned technician must be within 100 miles of the technician's primary work location. Only qualified technicians may provide support for eligible HP products.

- Must qualify for net 30 terms with a minimum credit limit of \$10,000.
- Must have at least one certified technician per service location. Multiple locations with the same assigned technician must be within 100 miles of the technician's primary work location. Only qualified technicians may provide support for eligible HP products.
- Must maintain a designated service contact known to HP at all times.

## **V. Onsite Inventory**

### **A. Spare Devices**

In response to the County's need for on-site inventory, HP will provide the County a customized spares program. Upon execution of the Agreement, HP will provide the County the following devices:

- Group 1, option 1 = 12 of Standard Performance desktop
- Group 1, option 2 = 12 of Mid Performance desktop
- Group 1, option 3 = 6 of High Performance desktop
- Group 2, option 1 = 2 of the tablet
- Group 2, option 2 = 2 of the netbook
- Group 2, option 3 = 4 of the standard performance notebook
- Group 2, option 4 = 4 of the Mid Performance notebook
- Group 2, option 5 = 2 of the High Performance notebook

HP will refresh these devices as each configuration's product series reaches the end of its relevancy within HP's product roadmap. At the time of transition to newer product family or series, HP will provide to the County a new shipment, consistent with the totals (by configuration), as listed above. Quantities in onsite inventory will be adjusted as needed by mutual agreement of the Parties, which HP will confirm in writing.

These devices will be sent to the County as onsite inventory and will not require the County to purchase the devices. HP will require the County to submit a zero dollar (\$0.00) purchase order prior to order

fulfillment and delivery. At such time as the County deploys a Product into production, it will be removed from inventory and the County will issue a purchase order for such Product. At the conclusion of a 30 day period, the County will issue a purchase order for the cost of Products remaining in inventory and HP will provide replacement inventory. During such 30 day period, HP will retain ownership/title of all Products. Upon expiration of the 30 day period and/or issuance of a purchased order, ownership/title will transfer to the County. The County shall accept risk of loss to Products after delivery.

Inventory Warranty. Warranty period will begin at the date of deployment of inventory, but no later than 30 days from delivery.

## **B. Spare Parts**

HP has endeavored to provide the best support offerings that will enable the County to maintain a high availability compute environment. In addition to the Spares and the HP Self Maintainer program, HP is pleased to provide to the County support for the requested on-site parts inventory.

HP's Self Maintainer program will enable the County to house an onsite reserve of parts that will assist the County in minimizing computer down time. HP's Self Maintainer program can facilitate the County's onsite spare parts requirement. This program will require further information regarding total inventory, enrollment into the HP Self Maintainer program, as well as a financial investment by the County into the parts inventory program.

This program will empower the County to limit service down time and speed up the time to repair devices. As a Self-Maintainer, information regarding the components that are considered critical to each build will be available to the County. The County will be able to order these parts and maintain on-site stock levels that are optimum to the County's unique environment.

General warranty repair terms will apply with this program, and as such, the warranty for the spare part will begin at the time the component is installed into a device that has a valid warranty case ID. The spare part warranty will begin when an HP Certified Warranty Repair Technician completes the warranty repair claim and the spare part will be covered under the longer of the remainder of the warranty for the covered device or the HP 90-day Spare Parts Limited Warranty.

## **VI. Deficient on Arrival (DOA)**

HP is dedicated to delivering Products to the County that are complete, undamaged, and usable. For that reason, resolving DOA issues quickly and consistently is a priority. A DOA unit is any eligible HP Product (system or option) that does not conform to the County's order upon initial inspection or use within 30 calendar days after the Product delivery, or within 30 calendar days after the documented date of initial installation (by HP, a third party, or the County) for the following reasons:

- Inoperative condition: The unit is not operative at power-up or fails because of factory-configured hardware, software, or firmware.

The quickest resolution to an inoperative condition is for the County to contact the normal service and warranty channels first. If initial Service is not successful, the County can request an additional service event or replacement unit. Replacement units receive highest supply-chain priority.

- Order fulfillment condition (to be addressed by Point of Sale):
  - Unit is incomplete or missing items or components;
  - Unit is configured improperly by HP or by a HP authorized reseller;
  - Unit received is not what was ordered;
  - Unit arrives damaged.

## VII. Review and Planning Meetings; Roadmap Activities

- The HP and CSS Account Teams will hold regular review meetings with the County's key technical personnel, at least once a month or with greater frequency as new technology releases or issues arise. These meetings are designed to inform all parties of the status of the business relationship, advise about any project work planned or in progress, and to draw attention to any technical or other issues that have occurred or could occur in the future.
- In addition, HP Technology Consultants will provide product "roadmaps" for HP future technologies, which require a mutually executed nondisclosure agreement ("NDA") between the parties. These briefings can be incorporated into regular meetings with the County or held separately if a different audience is required.
- HP can also use the services of Product Marketing to deliver specific or product-focused briefings, dependent on the audience and required information.
- The HP and CSS Account Teams will interface with the County on a daily basis to ensure basic account items are addressed as our relationship and the County's business requirements are defined. On a monthly basis, HP will also meet with the County's IT stakeholders to provide proactive communications that are pertinent or may be of interest to the County. Items that will be addressed in these meetings will include:
  - Proactive communication regarding product announcements;
  - Future technology enhancements and roadmap information;
  - Proactive management of the IT standards and related hardware;
  - New and innovative areas of potential cost savings;
  - Best practices and potential case studies that may be of interest to the County;
  - Input from the County regarding business practices;
  - Input from the County regarding key areas of focus;
  - Key actions or items that the County would like to assign to the HP team.

## VIII. County Employee Purchase Program

For purchase of HP products by County employees through our Employee Purchase Program (EPP) online store, HP will establish an account web portal, which is not government e-mail address sensitive. HP will provide the web portal address to the County for distribution to its employees.

## APPENDIX B – SUPPLEMENTAL DATA SHEET

This Supplemental Data Sheet provides additional general requirements and limitations that apply to Contractor's Support offerings, which are set forth in detail in offering-specific datasheets, with the exception of those Support offerings delivered by HP Software.

### 1. SERVICE ELIGIBILITY

- (a) Hardware Support-General Eligibility. Hardware Products must be in good operating condition, as reasonably determined by Contractor, to be eligible for placement under Support. The County must also maintain eligible Products at the latest Contractor-specified configuration and revision levels.
- (b) Return to Support. If the County allows Support to lapse, Contractor may charge the County additional fees to resume Support or require the County to perform certain Hardware or Software upgrades.
- (c) Use of Proprietary Service Tools. Contractor may require the County to use certain Hardware and/or Software system and network diagnostic and maintenance programs ("**Proprietary Service Tools**"), as well as certain diagnostic tools that may be included as part of the your system. Proprietary Service Tools are and remain the sole and exclusive property of Contractor, and are provided "as is." Proprietary Service Tools may reside on your systems or sites. The County may only use the Proprietary Service Tools during the applicable Support coverage period and only as allowed by Contractor and the County may not sell, transfer, assign, pledge, or in any way encumber or convey the Proprietary Service Tools. Upon termination of Support, the County will return the Proprietary Service Tools or allow Contractor to remove these Proprietary Service Tools. The County will also be required to:
  - (i) Allows Contractor to keep the Proprietary Service Tools resident on your systems or sites, and assist Contractor in running them;
  - (ii) Install Proprietary Service Tools, including installation of any required updates and patches;
  - (iii) Use the electronic data transfer capability to inform Contractor of events identified by the Software;
  - (iv) If required, purchase Contractor-specified remote connection Hardware for systems with remote diagnosis service; and
  - (v) Provide remote connectivity through an approved communications line.

### 2. SUPPORT LIMITATIONS

- (a) Local Availability of Support. Some offerings, features, and coverage (and related Products) may not be available in all countries or areas. In addition, delivery of Support outside of the applicable Contractor coverage areas may be subject to travel charges, longer response times, reduced restoration or repair commitments, and reduced coverage hours.
- (b) Version Support. Unless otherwise agreed by Contractor in writing, and for those offerings not delivered by HP Software, Contractor only provides Support for the current version and the immediately preceding version of HP Branded Software, and provided that HP Branded Software is used with Hardware or Software included in Contractor-specified configurations at the specified version level. "**Version**" means a release of Software that contains new features, enhancements, and/or maintenance updates, or for certain Software, a collection of revisions packaged into a single entity and, as such, made available to our customers.
- (c) Relocation and Impact on Support. Relocation of any Products under Support is your responsibility and is subject to local availability and fee changes. Reasonable advance notice to Contractor may be required to begin Support after relocation. For Products, any relocation is also subject to the license terms for such Products.
- (d) Multi-vendor Support. Contractor provides Support for certain non-HP Branded Products. The relevant data sheet will specify availability and coverage levels and the Support will be provided accordingly, whether or not the non-HP Branded Products are under warranty. Contractor may discontinue Support of non-HP Branded Products if the manufacturer or licensor ceases to provide Support for them.
- (e) Modifications. The County will allow Contractor, at Contractor's request, and at no additional charge, to modify Products to improve operation, supportability, and reliability, or to meet legal requirements.

### 3. COUNTY RESPONSIBILITIES

- (a) Site and Product Access. The County will provide Contractor access to the Products covered under Support; and if applicable, adequate working space and facilities within a reasonable distance of the Products; access to and use of information, customer resources, and facilities as reasonably determined necessary by Contractor to service the Products; and other access requirements described in the relevant data sheet. If the County fails to provide such access, resulting in Contractor's inability to provide Support, Contractor shall be entitled to charge the County for the Support call at Contractor's published service rates. The County is responsible for removing any Products ineligible for Support, as advised by Contractor, to allow Contractor to perform Support. If delivery of Support is made more difficult because of ineligible Products, Contractor will charge the County for the Extra Work at Contractor's published service rates.
- (b) Licenses. The County may purchase available Product Support for HP Branded Products only if the County can provide evidence that the County has rightfully acquired an appropriate HP license for the Products, and the County may not alter or modify the Products unless authorized by Contractor at any time.
- (c) Software Support Documentation and Right to Copy. The County may only copy documentation updates if the County purchased the right to copy them for the associated Products. Copies must include appropriate HP trademark and copyright notices.
- (d) Loaner Units. Contractor maintains title and the County shall have risk of loss or damage for loaner units if provided at Contractor's discretion as part of Hardware Support or warranty Services and such units will be returned to Contractor without lien or encumbrance at the end of the loaner period.
- (e) Hardware Support. Compatible Cables and Connectors. The County will connect Hardware Products covered under Support with cables and connectors (including fiber optics if applicable) that are compatible with the system, according to the manufacturer's operating manual.
- (f) Data Backup. To reconstruct your lost or altered files, data, or programs, the County must maintain a separate backup system or procedure that is not dependent on the Products under Support.
- (g) Temporary Workarounds. The County will implement temporary procedures or workarounds provided by Contractor while Contractor works on a permanent solution.
- (h) Hazardous Environment. The County will notify Contractor if the County uses Products in an environment that poses a potential health or safety hazard to Contractor employees or subcontractors. Contractor may require the County to maintain such Products under Contractor supervision and may postpone Service until the County remedies such hazards.
- (i) Authorized Representative. The County will have a representative present when Contractor provides Support at your site.
- (j) Product List. The County maintains and updates a list of all Products in excess of \$1,000 including: the location of the Products, serial numbers, the Contractor-designated system identifiers, and coverage levels.
- (k) Solution Center Designated Callers. The County will identify a reasonable number of callers, as determined by Contractor and the County ("**Designated Callers**"), who may access Contractor's customer Support call centers ("**Solution Centers**") or online help tools.
- (l) Solution Center Caller Qualifications. Designated Callers must be generally knowledgeable and demonstrate technical aptitude in system administration, system management, and, if applicable, network administration and management and diagnostic testing. Contractor may review and discuss with the County any Designated Caller's experience to determine initial eligibility. If issues arise during a call to the Solution Center that, in Contractor's reasonable opinion, may be a result of a Designated Caller's lack of general experience and training, the County may be required to replace that Designated Caller. All Designated Callers must have the proper system identifier as provided to the County when Support is initiated. Solution Centers may provide Support in English or local languages, or both.

#### 4. GENERAL PROVISIONS

- (a) Cancellation. The County may cancel Support orders or delete Products from Support upon thirty (30) days written notice, unless otherwise agreed in writing. Contractor may discontinue Support for Products and specific Support Services no longer included in Contractor's Support offering upon sixty (60) days written notice, unless otherwise agreed in writing. If the County cancels prepaid Support, Contractor will refund the County a pro-rata amount for the unused prepaid Support subject to any restrictions or early termination fees as may be set forth in writing.

- (b) Additional Services. Additional Services performed by Contractor at your request, and that are not included in your purchased Support, will be chargeable at the applicable published service rates for the country where the Service is performed.
- (c) Replacement Parts. Parts provided under Hardware Support may be whole unit replacements, or be new or functionally equivalent to new in performance and reliability and warranted as new. Replaced parts become the property of Contractor, unless Contractor agrees otherwise and the County pays any applicable charges.

**APPENDIX C**  
**HP STATE AND LOCAL GOVERNMENT AND EDUCATION**  
**CUSTOMER RETURN POLICY**

**Coverage:** These guidelines apply only to returns initiated by State and Local Government or Education customers purchasing HP/Compaq Branded product direct from Hewlett Packard Company ("HP") or a customer purchase under one of HP's State and Local Government or Education direct contract. A direct contract is defined as a contract by and between HP and a State, Local or Education end user. This return policy does not apply to resellers purchasing directly from HP Direct under a contract held by and between the reseller and the end user. This return policy does not apply to loaners, early marketing units or employee purchases administered as internal HP orders.

**Products Not Eligible:**

**Factory Express Services:** Products that require a custom image load, asset tagging and/or special packaging are not eligible unless the products are damaged, customer received an overage or HP incorrectly configured, ordered or shipped product (HP error).

**Refurbished products:** HP/Compaq Branded product

**Consumable products:** (i.e. printer cartridges, paper, open box software, etc.) cannot be returned to Hewlett-Packard

**Third Party Options:** Where returns are otherwise governed by the original manufacturer. Note: The original manufacturer may provide their own warranties; the guidelines should be confirmed with the customer support representative when requesting a Return Good Authorization ("RGA").

**Product not purchased from HP directly:** Which means product purchased from another source, such as a reseller, distributor, etc. not covered under an HP Direct held contract.

**RETURN OF PRODUCTS**

**Defective Product:**

For product that is defective on arrival, it is recommended that customers call Technical Support at 1-800-HPINVENT to determine if the product can be corrected. Or, the customer may utilize the 30 day goodwill return policy. Also the customer may call the HP North America Customer Service at 1-800-652-6672 to report product that was defective on arrival and obtain warranty service for HP Product, or obtain contact information for warranty services provided by other manufacturers.

**Carrier Related Loss or Damaged Shipments:**

Customers should note damages or shortages on the Bill of Lading at the time of delivery. Within a reasonable time or not later than 30 days from delivery, notify the HP Customer Service team and provide a copy of the Bill of Lading/Packing Slip.

Concealed damage(s) or shortage(s) (where the box is in good condition but product is missing or damaged) is an exception and should be reported as soon as practicable after delivery in order for HP to establish the claim with the carrier.

HP is committed to customer satisfaction and values our relationship with State and Local Government and Education Customer. To show our commitment, HP is providing a goodwill right to return, or exchange unused products within 30 days from receipt of the product. HP does not charge a restocking or handling fee for product returned within 30 days. It's at HP's sole discretion to accept return products after 30-days. If a product return is accepted after 30-days a restocking fee may apply.

**Procedures for Returns:**

The State or Local Government Customer should contact the assigned Customer Service Representative by calling HP's toll free number, 1.800.727.2472 to coordinate returns or replacements within 30 days from receipt of product. At that time the customer will be issued a Return Good Authorization (RGA) number that shall

remain valid for a period of fifteen (15) calendar days from the date of issuance. All materials must be received within the RGA validation period.

The HP Customer Service Representative will schedule the pickup for returns and forward an email to the person requesting the return. Faxes can also be forwarded in place of an email. The email will include all the information regarding the return, including the Return Good Authorization Number ("RGA") and carrier name and date of pickup. The Customer Service Representative will assist the Customer on any other details or specifics regarding returns, credits and refunds.

*Hewlett-Packard reserves the right to refuse any return that does not meet the requirements stated below:*

**Package – Product must be returned in the original shipping packaging. In the event the packaging is not available or unusable, it must be noted when requesting an RGA.**

If possible, remove all mailing labels on the outside of the box that references the customer address or simply mark out the mailing labels address with a marker. The customer will either receive a mailing label via email that should be attached to the return products and/or will be provided a label by the carrier. Be sure to mark your RGA number on the box.

If product for more than one RGA is being returned in the same box, make sure that all RGA numbers are listed on both the mailing label and packing list. If products are received at the Returns Center without valid RGA numbers on the mailing label, your credit may be delayed and proof of delivery or other supporting documentation may be required.

The RGA number(s) must appear clearly on the box, as returns will not be accepted without an RGA number.

Returns must be 100% complete, unused, in original and re-salable condition, with all original packaging, manuals, registration card(s), software, cabling and accessories. If, after the product has been returned and inspected, it is discovered that components are missing from the return, HP reserves the right not to issue an RGA for the return of the missing components. If it is determined that there are missing components when the product is returned, and the customer has received a credit, the customer will be issued an invoice for the missing component. Missing components may include but are not limited to keyboard, mouse, software, speakers, accessories, drives, memory, microprocessors, and processor boards.

RGA numbers that have been open for greater than fifteen (15) days may be cancelled and the customer subsequently invoiced for the unreturned product. Another RGA can be requested as long as it is within the 30 days of receipt of the product. Please note that all returned products must be credited against the account and order from which the product was originally invoiced.

**All products must be returned to the address provided by the HP Customer Service Representative via email or by the carrier:**
